

RAY'S FOR TODAY – LEVEL THREE

TABLE OF CONTENTS

UNIT ONE: REVIEW

- Lesson 1 – Arithmetic Operations
- Lesson 2 – Addition Number Bonds
- Lesson 3 – Addition Story Problems
- Lesson 4 – Arithmetic Operations
- Lesson 5 – Subtraction Number Bonds
- Lesson 6 – Subtraction Number Sentences
- Lesson 7 – Mixed Story Problems
- Lesson 8 – More Story Problems
- Lesson 9 – Arithmetic Operations & Multiplying
- Lesson 10 – Multiplication Number Bonds
- Lesson 11 – Multiplication Number Sentences
- Lesson 12 – Arithmetic Operations & Division
- Lesson 13 – Division Number Bonds
- Lesson 14 – Division Number Sentences
- Lesson 15 – Mixed Story Problems
- Lesson 16 – Numbers Review to 1000 & Ordering
- Lesson 17 – Numbers Review to 1000 & Ordering
- Lesson 18 – Numbers to 1000 – Greater Than, Less Than, Equal
- Lesson 19 – Addend Machine (Unit One Trip Check)
- Lesson 20 – Difference Machine (Unit One Trip Check)

UNIT TWO: ADDING & SUBTRACTING MULTIPLE MULTI-DIGIT NUMBERS

- Lesson 21 – Vertical Addition Facts
- Lesson 22 – Vertical Addition Facts
- Lesson 23 – Vertical Subtraction Facts
- Lesson 24 – Vertical Subtraction Facts
- Lesson 25 – Mixed Vertical Problems
- Lesson 26 – Using Addition as a Check
- Lesson 27 – Adding & Subtracting Ten
- Lesson 28 – Addition Properties
- Lesson 29 – Adding Multiple Numbers
- Lesson 30 – Subtracting Multiple Numbers
- Lesson 31 – Adding Multi-Digit Numbers (two 2-digit numbers, no regrouping)
- Lesson 32 – Adding Multi-Digit Numbers (2-digit & 3-digit, two 3-digit numbers, no regrouping)
- Lesson 33 – Subtracting Multi-Digit Numbers (two 2-digit numbers, no regrouping)
- Lesson 34 – Subtracting Multi-Digit Numbers (2-digit & 3-digit, two 3-digit numbers, no regrouping)
- Lesson 35 – Mixed Practice Adding & Subtracting Multi-Digit Numbers (no regrouping)
- Lesson 36 – Adding 1-Digit Numbers with Regrouping
- Lesson 37 – Addition with Carrying (ONES)
- Lesson 38 – Addition with Carrying (ONES)
- Lesson 39 – Addition with Carrying (ONES)
- Lesson 40 – Addition with Carrying (ONES)

Lesson 41 – Addition with Carrying (ONES)
Lesson 42 – Addition with Carrying (TENS)
Lesson 43 – Addition with Carrying (TENS)
Lesson 44 – Addition with Carrying (TO HUNDREDS)
Lesson 45 – Adding Numbers with Carrying
Lesson 46 – Subtracting 1-Digit Numbers with Regrouping
Lesson 47 – Subtracting 1-Digit Numbers with Regrouping
Lesson 48 – Subtracting 1-Digit Numbers with Regrouping
Lesson 49 – Subtracting 2-Digit Numbers with Regrouping
Lesson 50 – Subtraction with Borrowing
Lesson 51 – Subtraction with Borrowing (ONES & TENS)
Lesson 52 – Subtraction with Borrowing (ONES & TENS)
Lesson 53 – Regrouping Practice
Lesson 54 – Unit Two Trip Check
Lesson 55 – Mixed Story Problems with Regrouping
Lesson 56 – Cumulative Review – Story Problems
Lesson 57 – Problem-Solving Review
Lesson 58 – Problem-Solving Review
Lesson 59 – Problem-Solving Review
Lesson 60 – Problem-Solving Review

UNIT THREE: USING NUMBERS

Lesson 61 – More Paper Money
Lesson 62 – Counting Money
Lesson 63 – Comparing Money
Lesson 64 – Adding Money (no regrouping)
Lesson 65 – Subtracting Money (no regrouping)
Lesson 66 – Regrouping Money (adding)
Lesson 67 – Regrouping Money (subtracting)
Lesson 68 – Determining Change
Lesson 69 – Estimating and Determining Change
Lesson 70 – Money Story Problems
Lesson 71 – Using Fractions to Measure Length
Lesson 72 – Using Fractions to Measure Length
Lesson 73 – Measuring Distance (miles)
Lesson 74 – Elapsed Time
Lesson 75 – Elapsed Time (and calendar review)
Lesson 76 – Cumulative Review
Lesson 77 – Cumulative Review
Lesson 78 – Cumulative Review
Lesson 79 – Cumulative Review
Lesson 80 – Cumulative Review

UNIT FOUR: MULTIPLYING AND DIVIDING MULTI-DIGIT NUMBERS

Lesson 81 – Factor Machines
Lesson 82 – Vertical Multiplication Facts
Lesson 83 – Multiplying by Ten
Lesson 84 – Multiplication Facts for Eleven
Lesson 85 – Multiplication Facts for Eleven
Lesson 86 – Multiplication Facts for Twelve
Lesson 87 – Multiplication Facts for Twelve
Lesson 88 – Divisor Machines

Lesson 89 – Short Division
Lesson 90 – Short Division
Lesson 91 – Divisibility (ten and five)
Lesson 92 – Divisibility (two, odd/even numbers)
Lesson 93 – Divisibility (nine, three)
Lesson 94 – Division Facts for Eleven
Lesson 95 – Division Facts for Twelve
Lesson 96 – Mixed Story Problems
Lesson 97 – Short Division with Remainders
Lesson 98 – Multiplying Multi-Digit Numbers
Lesson 99 – Multiplying Multi-Digit Numbers
Lesson 100 – Multiplying Multi-Digit Numbers
Lesson 101 – Multiplying Multi-Digit Numbers (Unit Three Trip Check)
Lesson 102 – More Numbers (Thousands)
Lesson 103 – More Numbers
Lesson 104 – More Numbers
Lesson 105 – Ordering Larger Numbers
Lesson 106 – Comparing Larger Numbers
Lesson 107 – Multiplying Larger Numbers
Lesson 108 – More Numbers (Ten Thousands)
Lesson 109 – Multiplying Larger Numbers
Lesson 110 – Multiplying Larger Numbers
Lesson 111 – More Numbers (Hundred Thousands)
Lesson 112 – More Numbers
Lesson 113 – Working with Larger Numbers
Lesson 114 – Unit Review
Lesson 115 – Unit Review

UNIT FIVE – GEOMETRIC SHAPES

Lesson 116 – Flat Shapes (plane figures)
Lesson 117 – Flat Shapes (polygons)
Lesson 118 – Geometric Terms (point, line, line segment, ray)
Lesson 119 – Angles
Lesson 120 – Triangles
Lesson 121 – Area
Lesson 122 – Perimeter
Lesson 123 – Using Scale Drawings
Lesson 124 – Finding Perimeter & Area
Lesson 125 – Finding Perimeter & Area
Lesson 126 – Using a Map Scale
Lesson 127 – Solid Shapes
Lesson 128 – Volume
Lesson 129 – Transformations
Lesson 130 – Similarity & Congruence
Lesson 131 – Symmetry
Lesson 132 – Visual Perception
Lesson 133 – Unit Review
Lesson 134 – Cumulative Review
Lesson 135 – Cumulative Review

UNIT SIX – METRIC MEASUREMENT

- Lesson 136 – Customary & Metric Systems
- Lesson 137 – Metric System (capacity)
- Lesson 138 – Metric System (mass)
- Lesson 139 – Metric System (temperature)
- Lesson 140 – Roman Numerals

UNIT SEVEN – FRACTIONS & DECIMALS

- Lesson 141 – Fractional Parts (review)
- Lesson 142 – Fractional Parts (of a set)
- Lesson 143 – Fractional Wholes
- Lesson 144 – More Fractional Wholes
- Lesson 145 – Adding Fractions (Like Denominators)
- Lesson 146 – Adding Fractions (Story Problems)
- Lesson 147 – Subtracting Fractions (Like Denominators)
- Lesson 148 – Subtracting Fractions (Story Problems)
- Lesson 149 – Mixed Story Problems (fractions)
- Lesson 150 – Equivalent Fractions
- Lesson 151 – Finding Equivalent Fractions
- Lesson 152 – Comparing & Ordering Fractions
- Lesson 153 – Mixed Numbers
- Lesson 154 – Mixed Numbers
- Lesson 155 – More Properties of Numbers (Trip Check)
- Lesson 156 – Fractional Parts & Money
- Lesson 157 – Money as Decimals
- Lesson 158 – Decimal Places (Tenths, Hundredths)
- Lesson 159 – Adding Money as Decimals
- Lesson 160 – Subtracting Money as Decimals
- Lesson 161 – Decimal Story Problems (addition/subtraction, no regrouping)
- Lesson 162 – Regrouping Decimals
- Lesson 163 – Regrouping Decimals
- Lesson 164 – Regrouping Decimals
- Lesson 165 – Regrouping Decimals
- Lesson 166 – Regrouping Money
- Lesson 167 – Ordering Decimals
- Lesson 168 – Comparing Decimals
- Lesson 169 – Estimating Money & Reasonable Answers
- Lesson 170 – Unit Review (fractions)
- Lesson 171 – Unit Review (decimals)
- Lesson 172 – Multiples (of money)
- Lesson 173 – Using Graphs
- Lesson 174 – Making Graphs & Ordered Pairs
- Lesson 175 – Arithmetic Operations

GLOSSARY

APPENDIX

- Level Three Readiness Assessment
- Level Two Benchmarks
- Level Three Scope & Sequence
- Level Three Benchmarks

Summer Skills Review
Additional Cement Mixers
Addition & Subtraction Fact Families (1-10)
Multiplication & Division Fact Families (1-10)
Fact Families for 11 and 12
Hundred Chart
Multiplication Chart
Racetrack Game Board
Pet Store Items – Lesson 68
Toy Store Items – Lesson 68
Simplified Ruler – Lesson 72
Blank Clocks – Lesson 74
1400's-1900's Worksheets
Blank Addition/Subtraction Number Bonds
Blank Multiplication/Division Number Bonds
Scenes 1, 2, & 3 and Shape Cut-Outs – Lesson 129
Resized Squares – Lesson 130
Kim & Tim Folding Figures – Lesson 131
Folded Figures Sheets 1 & 2 – Lesson 131
Rectangular Brownie Pan Sheets 1-3 – Lesson 150
Square Brownie Pan Sheets 4-5 – Lesson 150
3 x 9 Rectangle Sheets 1 & 2 – Lesson 151
Fraction Squares & Circles (if manipulatives not available)
Wood Mystery Worksheet – Lesson 154
Dollar Bill & 100 Pennies Visual – Lesson 156
Game Instructions & Sample Game Boards
 Math Jungle Game Board
 Math Jungle Animal Cards
 Math Football
 Math Basketball Free Throws
 Soccer Field Game Board
 Numbered Cards for Soccer Game
 Obstacle Course Cards (two sheets)

ANSWER KEY

PHOTO CREDITS

NOTE:

At this level we begin the transition to a separate math notebook for the student. We do this to give students practice in paying attention to details—a crucial math skill—through the copywork. It also teaches the importance of neatness and order. In some cases, where the fine motor muscles and eye-hand coordination are still developing, it may be helpful for students to use large graph paper (with 1/2-inch squares in blue) instead of standard notebook paper.

Some of the lessons have the students writing in the book. If you want to use the Student Book for other siblings, have the student say the answers orally or write them on handwriting practice pads or on a chalkboard/whiteboard.
